Reinhart Genesis PMV Fund

RPMFX / RPMAX

INVESTMENT PHILOSOPHY

Reinhart Partners engages in fundamental analysis to identify what we believe are high quality durable businesses, with competitive moats, pricing power, and a consistent, sustainable record of strong returns on capital. The team believes investing in such proven, persistent companies at discounts to their private market value leads to superior long-term performance over the full market cycle.

THE APPROACH

The Genesis Private Market Value (PMV) investment strategy seeks long-term capital appreciation by investing in stocks of small and medium capitalization companies. The team utilizes PMV methodology for determining a company's true intrinsic value. It is calculated by observing actual merger and acquisition (M&A) transactions and applying corresponding and industry-specific valuation multiples to stocks we analyze. We believe stock prices can be driven by emotion and other behavioral patterns that cause market prices to diverge from true intrinsic value. Also, our research has shown that companies with a durable competitive advantage tend to bottom at a 30%-40% discount to PMV. The firm has found that owning such companies at a significant discount to PMV offers a positive risk/reward over the full market cycle.

The primary performance benchmark for the Genesis PMV strategy is the Russell 2500 Index. The Genesis PMV strategy has historically outperformed its benchmark during broad-based bear markets or periods of high volatility. The PMV strategy has typically underperformed on a relative basis during low-quality rallies or low volatility markets.

Guiding Principals

- *Emphasis on durable competitive advantage:* extensive focus on barriers to entry, customer captivity, persistency and cash-flow driven return on invested capital (ROIC).
- *M&A insight provides distinctive framework:* customized value metrics by industry to capture appropriate value drivers.
- *PMV discipline seeks to minimize behavioral biases:* new stocks are purchased at a 30% or greater discount to PMV and are typically sold when they reach, or are close to reaching PMV, or due to a change in the fundamentals of the security.

DISCLOSURES

The Russell 2500 Index is a subset of the Russell 3000 Index, including the smallest 2500 companies based on market cap. The Russell 2500 Value Index measures the performance of those Russell 2500 companies with lower price/book ratios and lower forecasted growth values. The secondary benchmark was changed 12/31/20, in presentations shown prior to 12/31/20, the composite was compared against the Russell 2000 Index. The benchmark was changed to reflect the strategy of the composite more accurately. Index information is included merely to show the general trend in the market for the periods indicated and is not intended to imply that the portfolio was similar to an index either in composition or element of risk. One cannot invest directly into an index. Index returns do not reflect the deduction of advisory fees or any other fees or expenses. Index returns reflect the reinvestment of dividends, interest, and other earnings.

Mutual fund investing involves risk. Principal loss is possible. Investing in small and medium-sized companies involves greater risks than those associated with investing in large company stocks, such as business risk, significant stock price fluctuations, and illiquidity. Investments in securities of foreign issuers involves risk not ordinarily associated with investments in securities and instruments of U.S. issuers, including risks related to political, social and economic developments abroad, differences between U.S. and foreign regulatory and accounting requirements, tax risks and market practices, as well as fluctuations in foreign currencies.

The Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The prospectus contains this and other important information about the investment company, and it may be obtained by calling 1-855-774-3863, or visiting www.reinhartfunds.com. Read it carefully before investing.

While the Fund is no-load, management and other expenses still apply.

The Reinhart Funds are distributed by Quasar Distributors, LLC.

**Assets under management include "Model Assets." These are non-discretionary assets over which Reinhart Partners exercises investment management decision making responsibility by submitting buy and sell instructions to a model manager who executes trades in accounts managed within the model strategy. Reinhart is not the Registered Investment Advisor for and does not execute trades in these client accounts. As of 06/30/21 Model Assets totaled approximately \$822 million.
