

MANAGED PORTFOLIO SERIES
(the “Trust”)

Reinhart Mid Cap PMV Fund
Reinhart Genesis PMV Fund
(the “Funds”)

*Supplement dated July 7, 2023, to the Prospectus and
Statement of Additional Information (“SAI”), each dated September 28, 2022*

This Supplement amends the Funds’ Prospectus and SAI by hereby adding the following disclosure:

Reinhart Partners, LLC (the “Adviser”) has terminated its agreement with Spouting Rock Asset Management, LLC (“SRAM”), whereby SRAM would acquire approximately 70% of the Adviser in a multi-step transaction over a period of two years (the “Acquisition”). As a result, the anticipated change in control of the Adviser due to the Acquisition, as disclosed in the prior supplement dated January 9, 2023 and the proxy statement dated February 10, 2023, will not occur and therefore there will be no technical “assignment” of the existing investment advisory agreement between the Adviser and the Trust, on behalf of the Funds. Reinhart Partners, LLC will continue to serve as investment adviser to each Fund in the same capacity as before.

This supplement should be retained for future reference.

MANAGED PORTFOLIO SERIES
(the “Trust”)

Reinhart Mid Cap PMV Fund
Reinhart Genesis PMV Fund
(the “Funds”)

*Supplement dated January 9, 2023, to the Prospectus and
Statement of Additional Information (“SAI”), each dated September 28, 2022*

This Supplement amends the Funds’ Prospectus and SAI by hereby adding the following disclosure:

Spouting Rock Asset Management, LLC (“SRAM”), a multi-boutique manager platform providing investment solutions and services, recently announced it has entered into a definitive agreement to acquire approximately 70% of the equity of Reinhart Partners, the Funds’ investment adviser (the “Adviser”), in a multi-step transaction over a period of two years (the “Acquisition”). The Acquisition is expected offer clients of both firms a broader asset management platform with attractive investment solutions and broader distribution and operational capabilities. The Adviser believes that its investors will benefit from the additional scale and resources SRAM brings. Closing is subject to customary conditions, with the first closing expected to occur during the first half of 2023.

Under the Investment Company Act of 1940, as amended (the “1940 Act”), the Acquisition will result in a technical “assignment” of the existing investment advisory agreement between the Adviser and the Trust, on behalf of the Funds, and, consequently, the automatic termination of the existing investment advisory agreement. Accordingly, the Board of Trustees of the Trust considered and approved a new investment advisory agreement (and an interim investment advisory agreement) between the Trust, on behalf of the Funds, and the Adviser at a meeting on January 5, 2023. In addition, a shareholder meeting has been called to approve the new investment advisory agreement. An interim investment advisory agreement is necessary from the closing of the Acquisition until such date as the new investment advisory agreement is approved by shareholders. The interim investment advisory agreement is effective under Rule 15a-4 of the 1940 Act for up to 150 days or until shareholders approve a new investment advisory agreement. Under the interim investment advisory agreement, the current management fee will not change, and the fees earned under the agreement will be held in escrow until the new investment advisory agreement is approved by shareholders.

A proxy statement seeking the approval of the new investment advisory agreement will be mailed to shareholders in the coming weeks.

Please note that no changes are planned to each Fund’s investment objective, principal investment strategies or portfolio management team. More information about these changes will be set forth in the proxy statement.

This supplement should be retained for future reference.

Statement of Additional Information

September 28, 2022

This Statement of Additional Information (“SAI”) provides general information about the Reinhart Mid Cap PMV Fund (the “Mid Cap Fund”) and the Reinhart Genesis PMV Fund (the “Genesis Fund”) (collectively, the “Funds”), each a series of Managed Portfolio Series (the “Trust”). This SAI is not a prospectus and should be read in conjunction with the Funds’ current prospectus dated September 28, 2022 (the “Prospectus”), as supplemented and amended periodically. In addition, the Funds’ financial statements for the fiscal year ended May 31, 2022, are incorporated herein by reference to the Funds’ [annual report dated May 31, 2022](#). To obtain a copy of the Prospectus and/or annual report, free of charge, please write or call the Funds at the address or toll-free telephone number below, or visit the Funds’ website at www.reinhartfunds.com.

The Trust and the Funds

The Trust is a Delaware statutory trust organized on January 27, 2011, and is registered with the Securities and Exchange Commission (“SEC”) as an open-end management investment company. Each Fund is one series, or mutual fund, of the Trust. The Mid Cap Fund has three classes of shares: Advisor Class shares, Investor Class shares and Institutional Class shares. The Genesis Fund has two classes of shares: Advisor Class shares and Investor Class shares. Each Fund is a diversified series and has its own investment objective and policies. Prior to September 28, 2016, the Mid Cap Fund was known as the Reinhart Mid Cap Private Market Value Fund. Shares of other series of the Trust are offered in separate prospectuses and SAIs. Except for the Reinhart International PMV Fund, the Funds, as series of the Trust, do not hold themselves out as related to any other series within the Trust, nor do they share the same investment adviser with any other series of the Trust. The Funds’ Prospectus and this SAI are a part of the Trust’s Registration Statement filed with the SEC. Copies of the Trust’s complete Registration Statement may be obtained from the SEC upon payment of the prescribed fee, or may be accessed free of charge at the SEC’s website at www.sec.gov. As permitted by Delaware law, the Trust’s Board of Trustees (the “Board”) may create additional classes of the Funds and may create additional series (and classes thereof) of the Trust and offer shares of these series and classes under the Trust at any time without the vote of shareholders.

All shares of a series shall represent an equal proportionate interest in the assets held with respect to that series (subject to the liabilities held with respect to that series and such rights and preferences as may have been established and designated with respect to classes of shares of such series), and each share of a series shall be equal to each other share of that series.

Shares are voted in the aggregate and not by series or class, except in matters where a separate vote is required by the Investment Company Act of 1940, as amended (the “1940 Act”), or when the matters affect only the interest of a particular series or class. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each full share owned and fractional votes for fractional shares owned.

The Trust does not normally hold annual meetings of shareholders. Meetings of the shareholders shall be called by any member of the Board upon written request of shareholders holding, in the aggregate, not less than 10% of the shares, such request specifying the purpose or purposes for which such meeting is to be called.

Interests in each Fund are represented by shares of beneficial interest, each with no par value per share. Each share of a Fund represents an equal proportionate interest in the assets and liabilities belonging to the Fund and is entitled to such distributions out of the income belonging to the Fund as may be declared by the Board.

The Board has the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series without materially changing the proportionate beneficial interest of the shares of that series in the assets belonging to that series or materially affecting the rights of shares of any other series. In case of the liquidation of a series, the holders of shares of the series being liquidated are entitled to receive a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series (or class thereof) are borne by that series (or class). Any general expenses of the Trust not readily identifiable as belonging to a particular series are allocated by, or under the direction of, the Board to all applicable series (and classes thereof) in such manner and on such basis as deemed fair and equitable. No shareholder is liable to further calls for the payment of any sum of money or assessment whatsoever with respect to the Trust or any series of the Trust without his or her express consent.

All consideration received by the Trust for the issue or sale of a Fund's shares, together with all assets in which such consideration is invested or reinvested, and all income, earnings, profits and proceeds thereof, including any proceeds derived from the sale, exchange or liquidation of such assets, and any funds or payments derived from any reinvestment of such proceeds, subject only to the rights of creditors, shall constitute the underlying assets of the Fund.

Reinhart Partners, Inc. (the "Adviser") serves as the investment adviser for the Funds.

Investment Policies, Strategies and Associated Risks

The following discussion supplements the description of each Fund's investment objective, principal investment strategies and principal risks set forth in the Prospectus. Except for the fundamental investment limitations listed below (see "Fundamental and Non-Fundamental Investment Limitations"), a Fund's investment strategies and policies are not fundamental and may be changed by sole action of the Board of Trustees, without shareholder approval. While a Fund is permitted to hold securities and engage in various strategies as described hereafter, it is not obligated to do so. The Funds might not invest in all of these types of securities or use all of these techniques at any one time. A Fund's transactions in a particular type of security or use of a particular technique is subject to limitations imposed by the Fund's investment objective, policies and restrictions described in the Fund's Prospectus and/or this SAI, as well as the federal securities laws.

Investment Objective

The investment objective of each Fund is set forth under the "Summary Section" in the Funds' Prospectus.

Diversification

Each Fund is diversified. A diversified fund is a fund that satisfies the definition of a “diversified company” set forth in the 1940 Act. A “diversified company” means that as to 75% of a Fund’s total assets, excluding cash, government securities and securities of other investment companies, (1) no more than 5% may be invested in the securities of a single issuer, and (2) the Fund may not hold more than 10% of the outstanding voting securities of a single issuer.

Because each Fund intends to qualify as a “regulated investment company” under Subchapter M of the Internal Revenue Code of 1986, as amended, (the “Code”), each Fund will limit its investments, excluding cash, cash items (including receivables), U.S. government securities and securities of other regulated investment companies, so that at the close of each quarter of the taxable year, (1) not more than 25% of a Fund’s total assets will be invested in the securities of a single issuer, and (2) with respect to 50% of its total assets, not more than 5% of the Fund’s total assets will be invested in the securities of a single issuer and the Funds will not hold more than 10% of such issuer’s outstanding voting securities.

Percentage Limitations

Each Fund’s compliance with its investment policies and limitations will be determined immediately after and as a result of the Fund’s acquisition of such security or other asset. Accordingly, except with respect to borrowing or illiquid investments, any subsequent change in values, net assets or other circumstances will not be considered when determining whether an investment complies with the Fund’s investment policies and limitations. In addition, if a bankruptcy or other extraordinary event occurs concerning a particular investment by a Fund, the Fund may receive stock, real estate or other investments that the Fund would not, or could not, buy. If this happens, the Fund will sell such investments as soon as practicable while trying to maximize the return to its shareholders.

Market Volatility

U.S. and international markets have from time to time experienced significant volatility. During certain volatile periods, the fixed income markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default and valuation difficulties. At times, concerns have spread to domestic and international equity markets. In some cases, the stock prices of individual companies have been negatively affected even though there may be little or no apparent degradation in the financial conditions or prospects of that company. Continued volatility may have adverse effects on the Funds, and the risks discussed below and in the Prospectus may increase.

Equity Securities

An equity security represents a proportionate share of the ownership of a company. Its value is based on the success of the company’s business, any income paid to stockholders, the value of its assets and general market conditions. Common stocks and preferred stocks are examples of equity securities. The fundamental risk of investing in common and preferred stock is the risk that the value of the stock might decrease.

Common Stock

Common stock represents an ownership interest in a company. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which a Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as holders of common stock. It is possible that all assets of that company will be exhausted before any payments are made to a Fund.

Preferred Stock

Preferred stock represents an ownership interest in a company, often pays dividends at a specific rate and has a preference over common stocks in dividend payments and liquidation of assets. A preferred stock is a blend of the characteristics of a bond and common stock. It can offer the higher yield of a bond and has priority over common stock in equity ownership, but does not have the seniority of a bond and, unlike common stock its participation in the issuer's growth may be limited. Although the dividend is set at a fixed annual rate, in some circumstances it can be changed or omitted by the issuer. In addition, preferred stock usually does not have voting rights.

Real Estate Securities

The real estate securities in which the Funds may invest consist of securities issued by Real Estate Investment Trusts ("REITs") or Real Estate Operating Companies ("REOCs") that are listed on a securities exchange or traded over-the-counter. A REIT is a corporation or trust that invests in fee or leasehold ownership of real estate, mortgages or shares issued by other REITs and that receives favorable tax treatment provided it meets certain conditions. REITs may be characterized as equity REITs (i.e., REITs that primarily invest in fee ownership and leasehold ownership of land), mortgage REITs (i.e., REITs that primarily invest in mortgages on real estate and other real estate debt) or hybrid REITs which invest in both fee and leasehold ownership of land and mortgages. A REIT that meets the applicable requirements of the Code may deduct dividends paid to shareholders, effectively eliminating any corporate level federal tax. As a result, REITs are able to distribute a larger portion of their earnings to investors than other corporate entities subject to the federal corporate tax. There is the risk that a REIT held by a Fund will fail to qualify for this tax-free pass-through treatment of its income. By investing in REITs indirectly through a Fund, in addition to bearing a proportionate share of the expenses of the Fund, investors will also indirectly bear similar expenses of the REITs in which the Fund invests. A REOC is typically structured as a "C" corporation under the tax code and is not required to distribute any portion of its income. A REOC, therefore, does not receive the same favorable tax treatment that is accorded a REIT. In addition, the value of a Fund's securities issued by REOCs may be adversely affected by income streams derived from businesses other than real estate ownership.

U.S. Government Obligations

The Funds may invest in U.S. government obligations. U.S. government obligations include securities issued or guaranteed as to principal and interest by the U.S. government, its agencies or instrumentalities. Treasury bills, the most frequently issued marketable government securities, have a maturity of up to one year and are issued on a discount basis. U.S. government obligations include securities issued or guaranteed by government-sponsored enterprises.

Payment of principal and interest on U.S. government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. government would provide financial support to its agencies or instrumentalities, including government-sponsored enterprises, where it is not obligated to do so (see “Agency Obligations,” below). In addition, U.S. government obligations are subject to fluctuations in market value due to fluctuations in market interest rates. As a general matter, the value of debt instruments, including U.S. government obligations, declines when market interest rates increase and rises when market interest rates decrease. Certain types of U.S. government obligations are subject to fluctuations in yield or value due to their structure or contract terms.

Initial Public Offerings

The Funds may invest in securities offered by companies in initial public offerings (“IPOs”). IPOs involve companies that have no public operating history and therefore entail more risk than established public companies. Because IPO shares frequently are volatile in price, a Fund may hold IPO shares for a very short period of time. This may increase the turnover of the Fund’s portfolio and may lead to increased expenses to the Fund, such as commissions and transaction costs. By selling IPO shares, a Fund may realize taxable capital gains that it will subsequently distribute to shareholders. Companies that offer securities in IPOs tend to typically have small market capitalizations and therefore their securities may be more volatile and less liquid than those issued by larger companies. Certain companies offering securities in an IPO may have limited operating experience and, as a result face a greater risk of business failure.

Cash Investments

Each Fund may hold up to 20% of its assets in cash, cash equivalents, and high quality, short-term debt securities and money market instruments (together “Cash Investments”) to retain flexibility in meeting redemptions, paying expenses, and identifying and assessing investment opportunities. Cash Investments include shares of other mutual funds, certificates of deposit, bankers’ acceptances, time deposits, savings association obligations, commercial paper, short-term notes (including discount notes), and other obligations. If the market advances during periods when a Fund is holding a large Cash Investment, the Fund may not participate to the extent it would have if the Fund had been more fully invested. To the extent that a Fund uses a money market fund for its Cash Investments, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund’s advisory fees and operational expenses.

Cash Investments are subject to credit risk and interest rate risk, although to a lesser extent than longer-term debt securities, due to their short-term, significant liquidity, and the high credit quality typically associated with such securities.

The Funds may invest in any of the following Cash Investments:

Money Market Mutual Funds. Generally, money market mutual funds seek to earn income consistent with the preservation of capital and maintenance of liquidity. They primarily invest in high quality money market obligations, including U.S. government obligations, bank obligations and high-grade corporate instruments. These investments generally mature within 397 calendar days from the date of acquisition. An investment in a money market mutual fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any government agency.

To the extent that a Fund invests in money market mutual funds, your cost of investing in the Fund will generally be higher because you will indirectly bear fees and expenses charged by the underlying money market mutual funds in addition to the Fund’s direct fees and expenses. Furthermore, investing in money market mutual funds could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you.

Bank Certificates of Deposit, Bankers’ Acceptances and Time Deposits. Each Fund may acquire certificates of deposit, bankers’ acceptances and time deposits. Certificates of deposit are negotiable certificates issued against monies deposited in a commercial bank for a definite period of time and earning a specified return. Bankers’ acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are “accepted” by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers’ acceptances acquired by a Fund will be dollar-denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. government.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under the investment objective and policies stated above and in the Prospectus, a Fund may make interest-bearing time deposits or other interest-bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Funds may invest in certificates of deposit (interest-bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. government.

Commercial Paper, Short-Term Notes and Other Corporate Obligations. The Funds may invest a portion of their assets in commercial paper, short-term notes, and other corporate obligations. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short-term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" or "Prime-2" by Moody's, or similarly rated by another nationally recognized statistical rating organization or, if unrated, determined by the Adviser to be of comparable quality.

Corporate obligations include bonds and notes issued by corporations to finance longer-term credit needs than supported by commercial paper. While such obligations generally have maturities of ten years or more, a Fund may purchase corporate obligations which have remaining maturities of one year or less from the date of purchase and which are rated "A" or higher by S&P, "A" or higher by Moody's, similarly rated by another nationally recognized statistical rating organization, or, if unrated, determined by the Adviser to be of comparable quality.

Investment Companies

Each Fund may invest in other investment companies to the extent permitted by the 1940 Act. Each Fund generally may purchase or redeem, without limitation, shares of any affiliated or unaffiliated money market funds, including unregistered money market funds, so long as the Fund does not pay a sales load or service fee in connection with the purchase, sale or redemption or if such fees are paid, and the Fund's investment adviser waives its management fee in an amount necessary to offset the amounts paid. With respect to other investments in investment companies, the 1940 Act generally limits each Fund from acquiring (i) more than 3% of the total outstanding shares of another investment company; (ii) shares of another investment company having an aggregate value in excess of 5% of the value of the total assets of the Fund; or (iii) shares of another registered investment company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of the Fund.

Investments by the Funds in other investment companies will be subject to the limitations of the 1940 Act (including limitations on sales charges), and the rules and regulations thereunder. By investing in securities of an investment company, each Fund's shareholders will indirectly bear the fees and expenses of that underlying fund in addition to a Fund's own fees and expenses.

In October 2020, the SEC adopted regulatory changes related to the ability of an investment company to invest in other investment companies in excess of specified statutory limits. These changes include, among other things, amendments to Rule 12d1-1, the rescission of Rule 12d1-2, the adoption of new Rule 12d1-4, and the rescission of certain exemptive relief issued by the SEC permitting certain fund of funds arrangements. Rule 12d1-4, which became effective on January 19, 2021, permits the Fund to invest in other investment companies, including money market funds, beyond the statutory limits, subject to certain conditions. The rescission of the applicable exemptive orders and the withdrawal of the applicable no-action letters was effective on January 19, 2022. Following this effectiveness, an investment company is no longer able to rely on these exemptive orders and no-action letters, and is subject instead to Rule 12d1-4 and other applicable rules under Section 12(d)(1).

Closed-End Funds. Closed-end funds are investment companies that typically issue a fixed number of shares that trade on a securities exchange or OTC. The risks of investment in closed-end funds typically reflect the risk of the types of securities in which the funds invest. Investments in closed-end funds are subject to the additional risk that shares of the fund may trade at a premium or discount to their net asset value ("NAV") per share. Closed-end funds come in many varieties and can have different investment objectives, strategies and investment portfolios. They also can be subject to different risks, volatility and fees and expenses. Although closed-end funds are generally listed and traded on an exchange, the degree of liquidity, or ability to be bought and sold, will vary significantly from one closed-end fund to another based on various factors including, but not limited to, demand in the marketplace. When a Fund invests in shares of a closed-end fund, shareholders of that Fund bear their proportionate share of the closed-end fund's fees and expenses, as well as their share of that Fund's fees and expenses.

Open-End Mutual Funds. Open-end mutual funds are investment companies that issue new shares continuously and redeem shares daily. The risks of investment of open-end mutual funds typically reflect securities in which the funds invest. The NAV per share of an open-end fund will fluctuate daily depending upon the performance of the securities held by the fund. Each open-end fund may have a different investment objective and strategy and different investment portfolio. Different funds may also be subject to different risks, volatility and fees and expenses. When a Fund invests in shares of an open-end fund, shareholders of the Fund bear their proportionate share of the open-end funds' fees and expenses, as well as their share of the Fund's fees and expenses.

Exchange-Traded Funds. Exchange-traded funds (“ETFs”) are typically open-end investment companies that are bought and sold on a national securities exchange. When a Fund invests in an ETF, it will bear additional expenses based on its pro rata share of the ETF’s operating expenses, including the potential duplication of management fees. The risk of owning an ETF generally reflects the risks of owning the underlying securities it holds. Many ETFs seek to replicate a specific benchmark index. However, an ETF may not fully replicate the performance of its benchmark index for many reasons, including because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of stocks held. Some ETFs are actively managed and instead of replicating, they seek to outperform a particular index or basket or price of a commodity or currency. In addition, shares of an ETF may trade at a market price that is higher or lower than their NAV and an active trading market in such shares may not develop or continue. Lack of liquidity in an ETF could result in an ETF being more volatile than the underlying portfolio of securities it holds. In addition, because of ETF expenses, compared to owning the underlying securities directly, it may be more costly to own an ETF.

If a Fund invests in shares of an ETF, shareholders will indirectly bear fees and expenses charged by the underlying ETF in which the Fund invests in addition to the Fund’s direct fees and expenses. The Fund also will incur brokerage costs when it purchases ETFs. Furthermore, investments in other ETFs could affect the timing, amount and character of distributions to shareholders and therefore may increase the amount of taxes payable by investors in the Fund.

Illiquid Investments

The Funds may purchase illiquid investments, which may include securities that are not readily marketable and securities that are not registered under the Securities Act. The Fund may not acquire any illiquid investments if, immediately after the acquisition, the Fund would have invested more than 15% of its net assets in illiquid investments that are assets. The term “illiquid investments” for this purpose means any investment that a fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment, as determined pursuant to the provisions of Rule 22e-4 under the 1940 Act. The Funds may not be able to sell illiquid investments when the Adviser considers it desirable to do so or may have to sell such investments at a price that is lower than the price that could be obtained if the investments were more liquid. In addition, the sale of illiquid investments also may require more time and may result in higher dealer discounts and other selling expenses than does the sale of investments that are more liquid. Illiquid investments also may be more difficult to value due to the unavailability of reliable market quotations for such investments, and investments in illiquid investments may have an adverse impact on NAV.

Institutional markets for restricted securities have developed as a result of the promulgation of Rule 144A under the Securities Act, which provides a safe harbor from Securities Act registration requirements for qualifying sales to institutional investors. When Rule 144A restricted securities present an attractive investment opportunity and otherwise meet selection criteria, the Fund may make such investments. Whether or not such investments are illiquid depends on the market that exists for

the particular investment. It is not possible to predict with assurance exactly how the market for Rule 144A restricted securities or any other security will develop. An investment which when purchased enjoyed a fair degree of marketability may subsequently become illiquid. In such event, appropriate remedies are considered to minimize the effect on the Fund's liquidity.

Cybersecurity Risk

The Funds, like all companies, may be susceptible to operational and information security risks. Cybersecurity failures or breaches of the Funds or their service providers or the issuers of securities in which the Funds invest have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, the inability of Fund shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, and/or additional compliance costs. The Funds and their shareholders could be negatively impacted as a result.

Fundamental and Non-Fundamental Investment Limitations

The Trust (on behalf of each Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the favorable "vote of the holders of a majority of the outstanding voting securities" of a Fund, as defined under the 1940 Act. Under the 1940 Act, the "vote of the holders of a majority of the outstanding voting securities" means the vote of the holders of the lesser of (i) 67% of the shares of a Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented; or (ii) more than 50% of the outstanding shares of the Fund.

The Funds may not:

1. Issue senior securities, borrow money or pledge its assets, except that (i) a Fund may borrow from banks in amounts not exceeding one-third of its total assets (including the amount borrowed) less liabilities (other than borrowings); and (ii) this restriction shall not prohibit the Fund from engaging in options transactions, reverse repurchase agreements, purchasing securities on a when-issued, delayed delivery, or forward delivery basis, or short sales in accordance with its objectives and strategies;
2. Underwrite the securities of other issuers (except that the Fund may engage in transactions involving the acquisition, disposition or resale of its portfolio securities under circumstances where the Fund may be considered to be an underwriter under the Securities Act);
3. Purchase or sell real estate or interests in real estate, unless acquired as a result of ownership of securities (although a Fund may purchase and sell securities that are secured by real estate and securities of companies that invest or deal in real estate);

4. Purchase or sell physical commodities or commodities contracts, unless acquired as a result of ownership of securities or other instruments and provided that this restriction does not prevent a Fund from engaging in transactions involving currencies and futures contracts and options thereon or investing in securities or other instruments that are secured by physical commodities;
5. Make loans of money (except for the lending of a Fund's portfolio securities, repurchase agreements and purchases of debt securities consistent with the investment policies of the Fund);
6. Invest in the securities of any one industry or group of industries if, as a result, 25% or more of a Fund's total assets would be invested in the securities of such industry or group of industries, except that the foregoing does not apply to securities issued or guaranteed by the U.S. government, its agencies or instrumentalities; or
7. With respect to 75% of a Fund's total assets, purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. government or any of its agencies or instrumentalities, or, to the extent permitted by the 1940 Act, the rules and regulations thereunder and any applicable exemptive relief, securities of other investment companies) if, as a result, (1) more than 5% of the Fund's total assets would be invested in the securities of that issuer; or (2) the Fund would hold more than 10% of the outstanding voting securities of that issuer.

Except with respect to borrowing and investments in illiquid securities, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in percentage resulting from any cause other than actions by a Fund will not be considered a violation. With respect to borrowing, if at any time a Fund's borrowings exceed one-third of its total assets (including the amount borrowed) less liabilities (other than borrowings), such borrowings will be reduced within three days, (not including Sundays and holidays) or such longer period as may be permitted by the 1940 Act, to the extent necessary to comply with the one-third limitation. If at any time a Fund's illiquid investments are greater than 15% of its net assets, the Fund will determine how to remediate the excess illiquid investments in accordance with the 1940 Act and the Fund's policies and procedures.

Management of the Funds

Board of Trustees

The management and affairs of the Funds are supervised by the Board. The Board consists of four individuals. The Trustees are fiduciaries for the Funds' shareholders and are governed by the laws of the State of Delaware in this regard. The Board establishes policies for the operation of the Funds and appoints the officers who conduct the daily business of the Funds.

The Role of the Board of Trustees

The Board provides oversight of the management and operations of the Trust. Like all mutual funds, the day-to-day responsibility for the management and operation of the Trust is the responsibility of various service providers to the Trust and its individual series, such as the Adviser; Quasar Distributors, LLC, the Funds' principal underwriter (the "Distributor"); U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services, the Funds' administrator (the "Administrator") and transfer agent (the "Transfer Agent"); and U.S. Bank N.A., the Funds' Custodian, each of whom are discussed in greater detail in this SAI. The Board approves all significant agreements between the Trust and its service providers, including the agreements with the Adviser, Distributor, Administrator, Custodian and Transfer Agent. The Board has appointed various individuals of certain of these service providers as officers of the Trust, with responsibility to monitor and report to the Board on the Trust's day-to-day operations. In conducting this oversight, the Board receives regular reports from these officers and service providers regarding the Trust's operations. The Board has appointed a Chief Compliance Officer ("CCO") who reports directly to the Board and who administers the Trust's compliance program and regularly reports to the Board as to compliance matters, including an annual compliance review. Some of these reports are provided as part of formal "Board Meetings," which are held four times per year, in person, and such other times as the Board determines is necessary, and involve the Board's review of recent Trust operations. From time to time one or more members of the Board may also meet with Trust officers in less formal settings, between formal Board Meetings to discuss various topics. In all cases, however, the role of the Board and of any individual Trustee is one of oversight and not of management of the day-to-day affairs of the Trust and its oversight role does not make the Board a guarantor of the Trust's investments, operations or activities.

Board Leadership Structure

The Board has structured itself in a manner that it believes allows it to effectively perform its oversight function. The Board is comprised of four Trustees that are not considered to be "interested persons" of the Funds, as defined in the 1940 Act ("Independent Trustees") – Messrs. David A. Massart, Leonard M. Rush, David M. Swanson and Robert J. Kern. Accordingly, 100% of the members of the Board are Independent Trustees, who are Trustees that are not affiliated with the investment adviser to the Funds or its respective affiliates or other service providers to the Funds. Prior to July 6, 2020, Mr. Kern was considered an "interested person" of the Trust as defined in the 1940 Act ("Interested Trustee"). He was considered an Interested Trustee by virtue of the fact that he had served as a board member of Quasar Distributors, LLC, which acts as principal underwriter to many of the Trust's underlying funds and had been an Executive Vice President of the Administrator. The Board has established two standing committees, an Audit Committee and a Nominating & Governance Committee, which are discussed in greater detail under "Board Committees" below. Each of the Audit Committee and the Nominating & Governance Committee are comprised entirely of Independent Trustees. The Independent Trustees have engaged independent counsel to advise them on matters relating to their responsibilities in connection with the Trust, as well as the Funds.

The Independent Trustees have appointed Leonard M. Rush as Chairman. Prior to July 6, 2020, Mr. Kern served as Chairman of the Trust and Mr. Rush served as lead Independent Trustee with responsibilities to coordinate activities of the Independent Trustees, act as a liaison with the Trust's service providers, officers, legal counsel, and other Trustees between meetings, help to set Board meeting agendas, and serve as chair during executive sessions of the Independent Trustees.

In accordance with the fund governance standards prescribed by the SEC under the 1940 Act, the Independent Trustees on the Nominating & Governance Committee select and nominate all candidates for Independent Trustee positions. Each Trustee was appointed to serve on the Board because of his experience, qualifications, attributes and skills as set forth in the subsection "Trustee Qualifications" below.

The Board reviews its structure regularly in light of the characteristics and circumstances of the Trust, including: the affiliated or unaffiliated nature of each investment adviser; the number of funds that comprise the Trust; the variety of asset classes that those funds reflect; the net assets of the Trust; the committee structure of the Trust; and the independent distribution arrangements of each of the Trust's underlying funds.

The Board has determined that the inclusion of all Independent Trustees as members of the Audit Committee and the Nominating & Governance Committee allows all such Trustees to participate in the full range of the Board's oversight duties, including oversight of risk management processes discussed below. Given the composition of the Board and the function and composition of its various committees as described above, the Trust has determined that the Board's leadership structure is appropriate.

Board Oversight of Risk Management

As part of its oversight function, the Board receives and reviews various risk management reports and assessments and discusses these matters with appropriate management and other personnel, including personnel of the Trust's service providers. Because risk management is a broad concept comprised of many elements (such as, for example, investment risk, issuer and counter-party risk, compliance risk, operational risks, business continuity risks, etc.) the oversight of different types of risks is handled in different ways. For example, the CCO regularly reports to the Board during Board Meetings and meets in executive session with the Independent Trustees and their legal counsel to discuss compliance and operational risks. In addition, Mr. Rush, the Independent Trustee designated as the Audit Committee's "audit committee financial expert," meets with the President, Treasurer and the Funds' independent registered public accounting firm to discuss, among other things, the internal control structure of the Funds' financial reporting function. The full Board receives reports from the investment advisers to the underlying funds and the portfolio managers as to investment risks.

Trustees and Officers

The Trustees and officers of the Trust are listed below with their addresses, present positions with the Trust and principal occupations over at least the last five years.

Name, Address and Year of Birth	Position(s) Held with the Trust	Term of Office and Length of Time Served	Number of Portfolios in Trust Overseen	Principal Occupation(s) During the Past Five Years	Other Directorships Held by Trustee During the Past Five Years
Independent Trustees					
Leonard M. Rush, CPA 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1946	Chairman, Trustee and Audit Committee Chairman	Indefinite Term; Since April 2011	36	Retired; Chief Financial Officer, Robert W. Baird & Co. Incorporated, (2000-2011).	Independent Trustee, ETF Series Solutions (60 Portfolios) (2012-Present).
David A. Massart 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1967	Trustee	Indefinite Term; Since April 2011	36	Partner and Managing Director, Beacon Pointe Advisors, LLC (since 2022); Co-Founder and Chief Investment Strategist, Next Generation Wealth Management, Inc. (2005-2021).	Independent Trustee, ETF Series Solutions (60 Portfolios) (2012-Present).
David M. Swanson 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1957	Trustee and Nominating & Governance Committee Chairman	Indefinite Term; Since April 2011	36	Founder and Managing Principal, SwanDog Strategic Marketing, LLC (2006-present).	Independent Trustee, ALPS Variable Investment Trust (7 Portfolios) (2006-Present); Independent Trustee, RiverNorth Funds (3 Portfolios) (2018-Present); RiverNorth Managed Duration Municipal Income Fund Inc. (1 Portfolio) (2019-Present); RiverNorth Specialty Finance Corporation (1 Portfolio) (2018-Present); RiverNorth/DoubleLine Strategic Opportunity Fund, Inc. Peter A. Walker, CPA 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1993	Assistant Treasurer and Vice President	Indefinite Term: Since November 2021	N/A	Officer, U.S. Bancorp Fund Services, LLC (2016-present).	N/A

Trustee Qualifications

The Board believes that each of the Trustees has the qualifications, experience, attributes and skills appropriate to their continued service as Trustees of the Trust in light of the Trust’s business and structure. The Trustees have substantial business and professional backgrounds that indicate they have the ability to critically review, evaluate and assess information provided to them. Certain of these business and professional experiences are set forth in detail in the table above. In addition, the Trustees have substantial board experience and, in their service to the Trust, have gained substantial insight as to the operation of the Trust. The Board annually conducts a “self-assessment” wherein the effectiveness of the Board and the individual Trustees are reviewed.

In addition to the information provided in the table above, below is certain additional information concerning each individual Trustee. The information provided below, and in the table above, is not all-inclusive. Many of the Trustees’ qualifications to serve on the Board involve intangible elements, such as intelligence, integrity, work ethic, the ability to work together, the ability to communicate effectively, the ability to exercise judgment, the ability to ask incisive questions, and commitment to shareholder interests.

Mr. Kern’s trustee attributes include substantial industry experience, including his 37 years of service with U.S. Bancorp Fund Services, LLC (the fund accountant (“Fund Accountant”), Administrator, and Transfer Agent to the Trust) where he managed business development and the mutual fund Transfer Agent operation including investor services, account services, legal compliance, document processing and systems support. He also served as a board member of U.S. Bancorp Fund Services. The Board believes Mr. Kern’s experience, qualifications, attributes and skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Mr. Massart's trustee attributes include substantial industry experience, including over two decades working with high net worth individuals, families, trusts and retirement accounts to make strategic and tactical asset allocation decisions, evaluate and select investment managers and manage client relationships. He is currently Partner and Managing Director of Beacon Pointe Advisors, LLC. Previously, he served as Chief Investment Strategist and lead member of the investment management committee of the SEC registered investment advisory firm he co-founded. He also previously served as Managing Director of Strong Private Client and as a Manager of Wells Fargo Investments, LLC. The Board believes Mr. Massart's experience, qualifications, attributes and skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Mr. Rush's trustee attributes include substantial industry experience, including serving in several different senior executive roles at various global financial services firms. He most recently served as Managing Director and Chief Financial Officer of Robert W. Baird & Co. Incorporated and several other affiliated entities and served as the Treasurer for Baird Funds. He also served as the Chief Financial Officer for Fidelity Investments' four broker-dealers and has substantial experience with mutual fund and investment advisory organizations and related businesses, including Vice President and Head of Compliance for Fidelity Investments, a Vice President at Credit Suisse First Boston, a Manager with Goldman Sachs, & Co. and a Senior Manager with Deloitte & Touche. Mr. Rush has been determined to qualify as an Audit Committee Financial Expert for the Trust. The Board believes Mr. Rush's experience, qualifications, attributes and skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Mr. Swanson's trustee attributes include substantial industry experience, including over 38 years of senior management and marketing experience with over 30 years dedicated to the financial services industry. He is currently the Founder and Managing Principal of a marketing strategy boutique serving asset and wealth management businesses. He has also served as Chief Operating Officer and Chief Marketing Officer of Van Kampen Investments, President and Chief Executive Officer of Scudder, Stevens & Clark, Canada, Ltd., Managing Director and Head of Global Investment Products at Morgan Stanley, Director of Marketing for Morgan Stanley Mutual Funds, Director of Marketing for Kemper Funds, and Executive Vice President and Head of Distribution for Calamos Investments. The Board believes Mr. Swanson's experience, qualifications, attributes and skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

This discussion of the Trustees' experience and qualifications is pursuant to SEC requirements, does not constitute holding out the Board or any Trustee as having special expertise, and shall not impose any greater responsibility or liability on any such Trustee or the Board by reason thereof.

Trustee and Management Ownership of Fund Shares

The following table shows the dollar range of Fund shares and shares in all portfolios of the Trust beneficially owned by the Trustees as of the calendar year ended December 31, 2021.

Dollar Range of Fund Shares Beneficially Owned (None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, Over \$100,000)			
Name	Reinhart Mid Cap PMV Fund	Reinhart Genesis PMV Fund	Aggregate Dollar Range of Fund Shares in the Trust
Independent Trustees			
David A. Massart	None	None	None
Leonard M. Rush	None	None	None
David M. Swanson	\$10,001 - \$50,000	\$1 - \$10,000	\$50,001 - \$100,000
Robert J. Kern	None	None	None

As of August 31, 2022, the Trustees and Officers of the Trust as a group owned less than 1% of the outstanding shares of any Fund in the Trust.

Board Committees

Audit Committee. The Trust has an Audit Committee, which is comprised of the Independent Trustees. The Audit Committee reviews financial statements and other audit-related matters for the Funds. The Audit Committee also holds discussions with management and with the Funds' independent registered public accounting firm concerning the scope of the audit and the auditor's independence. The Audit Committee met twice with respect to the Funds during their fiscal year ended May 31, 2022.

Nominating & Governance Committee. The Trust has a Nominating & Governance Committee, which is comprised of the Independent Trustees. The Nominating & Governance Committee is responsible for seeking and reviewing candidates for consideration as nominees for the position of trustee and meets only as necessary.

The Nominating & Governance Committee will consider nominees recommended by shareholders for vacancies on the Board. Recommendations for consideration by the Nominating & Governance Committee should be sent to the President of the Trust in writing together with the appropriate biographical information concerning each such proposed nominee, and such recommendation must comply with the notice provisions set forth in the Trust's Bylaws. In general, to comply with such procedures, such nominations, together with all required information, must be delivered to and received by the President of the Trust at the principal executive office of the Trust no fewer than 120 days, and no more than 150 days, prior to the shareholder meeting at which any such nominee would be voted on. Shareholder recommendations for nominations to the Board will be accepted on an ongoing basis. The Nominating & Governance Committee's procedures with respect to reviewing shareholder nominations will be disclosed as required by applicable securities laws. The Nominating & Governance Committee did not meet during the Funds' fiscal year ended May 31, 2022.

Trustee Compensation

Prior to January 1, 2022, the Trustees received an annual retainer of \$105,000 per calendar year. Effective January 1, 2022, the Trustees receive an annual retainer of \$110,000. The Chairman of the Audit Committee receives additional compensation of \$14,000, the Chairman of the Nominating & Governance Committee receives additional compensation of \$8,000. The Chairman of the Board of Trustees receives \$12,500 annually. The Trustees receive \$6,000 for regularly scheduled meetings and \$2,500 for additional meetings.

The following table sets forth the compensation received by the Trustees for the Funds' fiscal year ended May 31, 2022:

Name of Person/Position	Aggregate Compensation from the Mid Cap Fund ¹	Aggregate Compensation from the Genesis Fund ¹	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from the Fund and the Trust ² Paid to Trustees
Leonard M. Rush, Chairman, Trustee and Audit Committee Chairman	\$4,917	\$4,917	None	None	\$162,000
David A. Massart, Independent Trustee	\$4,113	\$4,113	None	None	\$135,500
David M. Swanson, Independent Trustee and Nominating & Governance Committee Chairman	\$4,356	\$4,356	None	None	\$143,500
Robert J. Kern, Independent Trustee	\$4,113	\$4,113	None	None	\$135,500

1 Trustees fees and expenses are allocated among the Funds and any other series comprising the Trust.

2 The Trust includes other portfolios in addition to the Funds.

Control Persons and Principal Shareholders

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of a Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of a Fund or acknowledges the existence of control. A controlling person possesses the ability to control the outcome of matters submitted for shareholder vote by a Fund.

The following tables list the shareholders considered to be either a control person or a principal shareholder of each Fund or share class indicated as of August 31, 2022:

Mid Cap Fund

⁽¹⁾ "Record" ownership means the shareholder of record, or the exact name of the shareholder on the account, i.e., "ABC Brokerage, Inc." "Beneficial" ownership refers to the actual pecuniary, or financial, interest in the security, i.e., "Jane Doe Shareholder."

Investment Adviser

Investment advisory services are provided to the Funds by the Adviser, Reinhart Partners, Inc., pursuant to an investment advisory agreement (the “Advisory Agreement”). James Reinhart, through his equity ownership, is a control person of the Adviser.

Pursuant to the Advisory Agreement, the Adviser provides the Funds with investment research and advice and furnishes the Funds with an investment program consistent with each Fund’s investment objective and policies, subject to the supervision of the Board. The Adviser determines which portfolio securities will be purchased or sold, arranges for the placing of orders for the purchase or sale of portfolio securities, selects brokers or dealers to place those orders, maintains books and records with respect to the securities transactions, and reports to the Board on the Funds’ investments and performance. The Adviser is solely responsible for making investment decisions on behalf of the Funds. The Board will have sole responsibility for selecting, evaluating the performance of, and replacing as necessary any of the service providers to the Funds, including the Adviser.

The Advisory Agreement will continue in effect from year to year, only if such continuance is specifically approved at least annually by: (i) the Board or the vote of a majority of the outstanding voting securities of each Fund; and (ii) the vote of a majority of the Independent Trustees, cast in person at a meeting called for the purpose of voting on such approval. The Advisory Agreement is terminable without penalty by the Trust, on behalf of a Fund, upon 60 days’ written notice to the Adviser, when authorized by either: (i) a majority vote of the Fund’s shareholders; or (ii) by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days’ written notice to the Trust. The Advisory Agreement will automatically terminate in the event of its “assignment,” as defined under the 1940 Act. The Advisory Agreement provides that the Adviser under such agreement shall not be liable for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Funds, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

In consideration of the services provided by the Adviser pursuant to the Advisory Agreement, the Adviser is entitled to receive from each Fund a management fee computed daily and paid monthly, based on a percentage of each Fund’s net assets, as specified in the Prospectus. However, the Adviser may voluntarily agree to reduce the management fees payable to it on a month-to-month basis, including additional fees above and beyond any contractual agreement the Adviser may have to reduce management fees and/or reimburse Fund expenses.

Fund Expenses. The Funds are responsible for their own operating expenses. Pursuant to an Operating Expenses Limitation Agreement between the Adviser and the Trust, on behalf of the Funds, the Adviser has agreed to waive its management fees and pay Fund expenses, as specified in the Prospectus. Fees waived and expenses paid by the Adviser may be recouped by the Adviser for a period of 36 months following the month during which such fee waiver and/or expense payment was made, if such recoupment can be achieved without exceeding the expense limit in effect at the time of the fee waiver

and the expense payment occurred and at the time of the recoupment. The Operating Expenses Limitation Agreement is indefinite in term and cannot be terminated through at least September 28, 2028, with respect to the Mid Cap Fund, and cannot be terminated through at least September 28, 2023, with respect to the Genesis Fund. Thereafter, the agreement may be terminated at any time upon 60 days' written notice by the Trust's Board (the "Board") or the Adviser, with the consent of the Board.

The total amount of advisory fees paid during the fiscal year indicated for the Mid Cap Fund, were as follows:

Advisory Fees Paid During the Fiscal Year Ended	May 31, 2022	May 31, 2021	May 31, 2020
Advisory Fees Accrued	\$2,061,944	\$1,692,724	\$1,884,477
Advisory Fees Recouped/(Waived)	\$(300,293)	\$(399,577)	\$(467,366)
Total Advisory Fees Paid to Adviser	\$1,761,651	\$1,293,147	\$1,417,111

The total amount of advisory fees paid during the fiscal period indicated for the Genesis Fund, were as follows:

Advisory Fees Paid During the Fiscal Year Ended	May 31, 2022	May 31, 2021	May 31, 2020
Advisory Fees Accrued	\$2,494,818	\$1,227,636	\$366,359
Advisory Fees Recouped/(Waived)	\$(550,093)	\$(405,777)	\$(282,671)
Total Advisory Fees Paid to Adviser	\$1,944,725	\$821,859	\$83,688

Portfolio Managers

As disclosed in the Prospectus, Brent Jesko, Joshua D. Wheeler, and Matthew Martinek are the portfolio managers for the Funds (the "Portfolio Managers").

The following tables provide information regarding other accounts, excluding the Funds, managed by the Portfolio Managers as of May 31, 2022:

Name of Manager	Account Category	# of Accounts⁽¹⁾	Total Assets of Accounts⁽²⁾	# of Accounts Paying a Performance Fee	Total Assets of Accounts Paying a Performance Fee
Brent Jesko	Registered investment companies	0	\$0	0	\$0
	Other pooled investment vehicles	0	\$0	0	\$0
	Other Accounts	272	\$1,199,634,263	2	\$64,720,855
Joshua D. Wheeler	Registered investment companies	0	\$0	0	\$0
	Other pooled investment vehicles	0	\$0	0	\$0
	Other Accounts	178	\$510,351,103	2	\$64,720,855
Matthew Martinek	Registered investment companies	0	\$0	0	\$0
	Other pooled investment vehicles	0	\$0	0	\$0
	Other Accounts	94	\$689,283,160	0	\$0

⁽¹⁾ Total Number of Accounts Managed (Not Including the Reinhart Funds).

⁽²⁾ Total Assets in Accounts Managed (Not Including the Reinhart Funds).

The Portfolio Managers' management of "other accounts" may give rise to potential conflicts of interest in connection with the management of a Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as a Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a Portfolio Manager could favor one account over another. Another potential conflict could include a Portfolio Manager's knowledge about the size, timing and possible market impact of Fund trades, whereby the Portfolio Manager could use this information to the advantage of other accounts and to the disadvantage of a Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

The Adviser compensates the Portfolio Managers for their management of the Funds. The Portfolio Managers' compensation is based on a combination of competitive base salary and additional compensation based upon the amount of assets managed. The Portfolio Managers' entire compensation package is paid by the Adviser and not by any client account.

The following table indicates the dollar range of Fund shares beneficially owned by each Portfolio Manager as of May 31, 2022:

Portfolio Manager	Fund Name	Dollar Range of Shares Beneficially Owned
		(None, \$1-\$10,000; \$10,001-\$50,000; \$50,001-\$100,000; \$100,001 - \$500,000; \$500,001-\$1,000,000; Over \$1,000,000)
Brent Jesko	Reinhart Mid Cap PMV Fund	\$100,001 - \$500,000
Joshua D. Wheeler	Reinhart Mid Cap PMV Fund	\$100,001 - \$500,000
Brent Jesko	Reinhart Genesis PMV Fund	\$100,001 - \$500,000
Matthew Martinek	Reinhart Genesis PMV Fund	\$100,001 - \$500,000

Service Providers

Pursuant to an administration agreement (the “Administration Agreement”) between the Trust and U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Fund Services”), 615 East Michigan Street, Milwaukee, Wisconsin, 53202, acts as the Administrator to the Funds. Fund Services provides certain administrative services to the Funds, including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Funds’ independent contractors and agents; preparation for signature by an officer of the Trust of all documents required to be filed for compliance by the Trust and the Funds with applicable laws and regulations; arranging for the computation of performance data, including NAV per share and yield; responding to shareholder inquiries; arranging for the maintenance of books and records of the Funds; and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, Fund Services does not have any responsibility or authority for the management of the Funds, the determination of investment policy, or for any matter pertaining to the distribution of Fund shares. Pursuant to the Administration Agreement, for its services, Fund Services receives from each Fund a fee computed daily and payable monthly based on each Fund’s average net assets subject to an annual minimum fee. Fund Services also acts as Fund Accountant, Transfer Agent and dividend disbursing agent under separate agreements with the Trust.

The Funds paid fund administration and fund accounting fees to Fund Services during the fiscal years ended May 31:

Fund	2022	2021	2020
Mid Cap Fund	\$244,643	\$254,724	\$264,450
Genesis Fund	\$249,756	\$174,030	\$107,707

Pursuant to a custody agreement between the Trust and the Funds, U.S. Bank N.A., an affiliate of Fund Services, serves as the custodian of the Funds' assets. For its services, the Custodian receives a monthly fee based on a percentage of the Funds' assets, in addition to certain transaction-based fees, and is reimbursed for out-of-pocket expenses. The Custodian's address is 1555 North RiverCenter Drive, Suite 302, Milwaukee, Wisconsin, 53212. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Funds. U.S. Bank N.A. and its affiliates may participate in revenue sharing arrangements with service providers of mutual funds in which the Funds may invest.

Legal Counsel

Stradley Ronon Stevens & Young, LLP, 2005 Market Street, Suite 2600, Philadelphia, Pennsylvania 19103, serves as counsel to the Trust and as independent legal counsel to the Board.

Independent Registered Public Accounting Firm

Cohen & Company, Ltd., 342 North Water Street, Suite 830, Milwaukee, Wisconsin 53202, serves as the independent registered public accounting firm for the Funds. Its services include auditing the Funds' financial statements and the performance of related tax services.

Distribution of Fund Shares

The Trust has entered into a distribution agreement (the "Distribution Agreement") with Quasar Distributors, LLC (the "Distributor"), 111 East Kilbourn Avenue, Suite 2200, Milwaukee, Wisconsin 53202, pursuant to which the Distributor acts as the Funds' principal underwriter, provides certain administrative services and promotes and arranges for the sale of the Funds' shares on a best efforts basis. The offering of the Funds' shares is continuous. The Distributor, Administrator and Custodian are affiliated companies. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

The Distribution Agreement will continue in effect only if such continuance is specifically approved at least annually by the Board or by vote of a majority of each Fund's outstanding voting securities and, in either case, by a majority of the Independent Trustees. The Distribution Agreement is terminable without penalty by the Trust, on behalf of each Fund, on 60 days' written notice when authorized either by a majority vote of a Fund's shareholders or by vote of a majority of the Board of Trustees, including a majority of the Trustees who are not "interested persons" (as defined under the 1940 Act) of the Trust, or by the Distributor on 60 days' written notice, and will automatically terminate in the event of its "assignment," as defined in the 1940 Act.

Distribution (Rule 12b-1) Plan

The Funds have adopted a distribution plan for the Investor Class shares pursuant to Rule 12b-1 under the 1940 Act (the “12b-1 Plan”). Under the 12b-1 Plan, the Funds pay a fee to the Distributor for distribution and/or shareholder services, (“Distribution and Service Fees”) at an annual rate of 0.25% of each Fund’s average daily NAV of Investor Class shares. The 12b-1 Plan provides that the Distributor may use all or any portion of such Distribution and Service Fees to finance any activity that is principally intended to result in the sale of Fund shares, subject to the terms of the 12b-1 Plan, or to provide certain shareholder services. The 12b-1 Plan is intended to benefit each Fund by increasing its assets and thereby reducing the Fund’s expense ratio.

During the fiscal year ended May 31, 2022, the Mid Cap Fund’s Investor Class shares incurred \$55,528 in Distribution and Service Fees and the Genesis Fund’s Investor Class incurred \$44,424 in Distribution and Service Fees.

The following table shows the allocation of the Distribution and Service Fees paid by each Fund’s Investor Class shares during the fiscal year ended May 31, 2022.

	Mid Cap Fund	Genesis Fund
Advertising/Marketing	\$0	\$0
Printing/Postage	\$0	\$0
Payment to distributor	\$0	\$0
Payment to dealers	\$55,528	\$44,424
Compensation to sales personnel	\$0	\$0
Other	\$0	\$0
Total	\$55,528	\$44,424

The Distribution and Service Fees are payable to the Distributor regardless of the distribution-related expenses actually incurred. Because the Distribution and Service Fees are not directly tied to expenses, the amount of distribution fees paid by the Investor Class shares during any year may be more or less than actual expenses incurred pursuant to the 12b-1 Plan. For this reason, this type of distribution fee arrangement is characterized by the staff of the SEC as a “compensation” plan.

The Distributor may use the Distribution and Service Fees to pay for services covered by the 12b-1 Plan including, but not limited to, advertising, compensating underwriters, dealers and selling personnel engaged in the distribution of Fund shares, the printing and mailing of prospectuses, statements of additional information and reports, the printing and mailing of sales literature pertaining to the Funds, and obtaining whatever information, analyses and reports with respect to marketing and promotional activities that the Funds may, from time to time, deem advisable.

The 12b-1 Plan provides that it will continue from year to year upon approval by the majority vote of the Board of Trustees, including a majority of the Independent Trustees cast in person at a meeting called for that purpose, provided that such trustees have made a determination that there is a reasonable likelihood that the 12b-1 Plan will benefit the Funds and their shareholders. It is also required that the

Independent Trustees, select and nominate all other trustees who are not “interested persons” of the Funds. The 12b-1 Plan and any related agreements may not be amended to materially increase the amounts to be spent for distribution expenses without approval of shareholders holding a majority of the Fund shares outstanding. All material amendments to the 12b-1 Plan or any related agreements must be approved by a vote of a majority of the Board and the Independent Trustees, cast in person at a meeting called for the purpose of voting on any such amendment.

The 12b-1 Plan requires that the Distributor provide to the Board of Trustees, at least quarterly, a written report on the amounts and purpose of any payment made under the 12b-1 Plan. The Distributor is also required to furnish the Board with such other information as may reasonably be requested in order to enable the Board to make an informed determination of whether the 12b-1 Plan should be continued.

As noted above, the 12b-1 Plan provides for the ability to use Fund assets to pay financial intermediaries (including those that sponsor mutual fund supermarkets), plan administrators and other service providers to finance any activity that is principally intended to result in the sale of Fund shares (distribution services) and for the provision of personal services to shareholders. The payments made by the Funds to financial intermediaries are based primarily on the dollar amount of assets invested in the Funds through the financial intermediaries. These financial intermediaries may pay a portion of the payments that they receive from the Funds to their investment professionals. In addition to the ongoing asset-based fees paid to these financial intermediaries under the 12b-1 Plan, the Funds may, from time to time, make payments under the 12b-1 Plan that help defray the expenses incurred by these intermediaries for conducting training and educational meetings about various aspects of the Funds for their employees. The Funds may also make payments under the 12b-1 Plan for exhibition space and to help defray the expenses these financial intermediaries incur in hosting client seminars where the Funds are discussed.

In addition, the Funds may participate in various “fund supermarkets” in which a mutual fund supermarket sponsor (usually a broker-dealer) offers many mutual funds to the sponsor’s customers without charging the customers a sales charge. In connection with its participation in such platforms, the Distributor may use all or a portion of the Distribution and Service Fee to pay one or more supermarket sponsors a negotiated fee for distributing a Fund’s shares. In addition, in its discretion, the Adviser may pay additional fees to such intermediaries from its own assets.

Shareholder Servicing Plan

Pursuant to a Shareholder Servicing Plan (the “Plan”) adopted by the Trust on behalf of the Investor Class and Advisor Class shares of the Funds, the Adviser is authorized to provide, or arrange for others to provide personal shareholder services relating to the servicing and maintenance of shareholder accounts not otherwise provided to the Funds (“Shareholder Servicing Activities”). Under the Plan, the Adviser may enter into shareholder service agreements with securities broker-dealers and other securities professionals (“Service Organizations”) who provide Shareholder Servicing Activities for their clients invested in a Fund, including affiliates of the Adviser.

Shareholder Servicing Activities shall include one or more of the following: (1) establishing and maintaining accounts and records relating for shareholders of a Fund; (2) aggregating and processing orders involving the shares of a Fund; (3) processing dividend and other distribution payments from a Funds on behalf of shareholders; (4) providing information to shareholders as to their ownership of Fund shares or about other aspects of the operations of a Fund; (5) preparing tax reports or forms on behalf of shareholders; (6) forwarding communications from a Fund to shareholders; (7) assisting shareholders in changing a Fund’s records as to their addresses, dividend options, account registrations or other data; (8) providing sub-accounting with respect to shares beneficially owned by shareholders, or the information to a Fund necessary for sub-accounting; (9) responding to shareholder inquiries relating to the services performed; (10) providing shareholders with a service that invests the assets of their accounts in shares pursuant to specific or pre-authorized instructions; and (11) providing such other similar services as the Adviser may reasonably request to the extent the Service Organization is permitted to do so under applicable statutes, rules or regulations.

As compensation for the Shareholder Servicing Activities, the Investor Class and Advisor Class of each Fund pays the Adviser a fee of up to 0.15% of the Fund’s average daily net assets of the shares owned by investors for which the Service Organization maintains a servicing relationship. Institutional Class shares do not participate in the Plan.

The Funds paid the following amounts in shareholder servicing fees to the Adviser during the fiscal years ended May 31:

Fund	2022	2021	2020
Mid Cap Fund	\$94,635	\$105,993	\$138,725
Genesis Fund	\$91,477	\$34,039	\$15,254

Portfolio Transactions and Brokerage

Pursuant to the Advisory Agreement, the Adviser determines which securities are to be purchased and sold by the Funds and which broker-dealers are eligible to execute a Fund’s portfolio transactions. Purchases and sales of securities on an exchange are effected through brokers that charge a commission while purchases and sales of securities in the OTC market will generally be executed directly with the primary “market-maker” unless, in the opinion of the Adviser, a better price and execution can otherwise be obtained by using a broker for the transaction. Purchases and sales of portfolio securities that are fixed income securities (for instance, money market instruments and bonds, notes and bills) usually are principal transactions. In a principal transaction, the party from whom a Fund purchases or to whom the Fund sells is acting on its own behalf (and not as the agent of some other party, such as its customers). These securities normally are purchased directly from the issuer or from an underwriter or market maker for the securities. The price of securities purchased from underwriters includes a disclosed fixed commission or concession paid by the issuer to the underwriter, and prices of securities purchased from dealers serving as market makers reflects the spread between the bid and asked price. The price of OTC securities usually includes an undisclosed commission or markup.

Purchases of portfolio securities for a Fund will be effected through broker-dealers (including banks) that specialize in the types of securities that the Fund will be holding, unless better executions are available elsewhere. Dealers usually act as principal for their own accounts. Purchases from dealers will include a spread between the bid and the asked price. If the execution and price offered by more than one dealer are comparable, the order may be allocated to a dealer that has provided research or other services as discussed below.

In placing portfolio transactions, the Adviser will use reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities, and other factors available, will be considered in making these determinations. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers that furnish or supply research and statistical information to the Adviser that it may lawfully and appropriately use in its investment advisory capacities, as well as provide other brokerage services incidental to execution services. Research and statistical information may include reports that are common in the industry such as industry research reports and periodicals, quotation systems, software for portfolio management and formal databases. Typically, the research will be used to service all of the Adviser's accounts, although a particular client may not benefit from all the research received on each occasion. The Adviser considers research information, which is in addition to and not in lieu of the services required to be performed by it under its Advisory Agreement with the Funds, to be useful in varying degrees, but of indeterminable value.

While it is the Funds' general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for a Fund, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Fund or to the Adviser, even if the specific services are not directly useful to the Fund and may be useful to the Adviser in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, a Fund may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Adviser to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer. The standard of reasonableness is to be measured in light of the Adviser's overall responsibilities to the Funds.

Investment decisions for each Fund are made independently from those of other client accounts of the Adviser and its affiliates. Nevertheless, it is possible that at times identical securities will be acceptable for a Fund and one or more of such client accounts. In such event, the position of the Fund and such client account(s) in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts seek to acquire the same security as a Fund at the same time, the Fund may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield

for such security. Similarly, a Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts simultaneously purchases or sells the same security that a Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such client accounts in a manner deemed equitable by the Adviser, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Funds are concerned. In other cases, however, it is believed that the ability of a Fund to participate in volume transactions may produce better executions for the Fund. Notwithstanding the above, the Adviser may execute buy and sell orders for accounts and take action in performance of its duties with respect to any of its accounts that may differ from actions taken with respect to another account, so long as the Adviser shall, to the extent practical, allocate investment opportunities to accounts, including the Funds, over a period of time on a fair and equitable basis and in accordance with applicable law.

Portfolio transactions may be placed with broker-dealers who sell shares of the Funds subject to rules adopted by FINRA and the SEC. Portfolio transactions may also be placed with broker-dealers in which the Adviser has invested on behalf of a Fund and/or client accounts.

The table set forth below shows the total commissions paid for research services by each Fund, along with the principal value of the transactions, for the fiscal year ended May 31, 2022:

Fund	Commissions	Principal Value
Mid Cap Fund	\$6,661	\$14,087,585
Genesis Fund	\$17,721	\$22,787,740

The following table sets forth the amount of brokerage commissions paid by each Fund during the fiscal years ended May 31:

Fund	2022	2021	2020
Mid Cap Fund	\$69,361	\$98,672 ⁽¹⁾	\$217,373
Genesis Fund	\$180,379	\$116,217	\$94,117 ⁽²⁾

⁽¹⁾ The decrease in brokerage commissions paid by the Mid Cap Fund during the fiscal year ended May 31, 2021 was due to market volatility and trading activity amid the COVID-19 induced selloff during the first half of 2020.

⁽²⁾ The increase in brokerage commissions paid by the Genesis Fund during the fiscal year ended May 31, 2020 was due to an increase in assets in the Fund.

Portfolio Turnover

Although the Funds generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (1) the lesser of purchases or sales of portfolio securities for the fiscal year by (2) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in a Fund's portfolio, with the exception of securities whose maturities at the time of

acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to above-average transaction costs and could generate capital gains that must be distributed to shareholders as short-term capital gains taxed at ordinary income rates (currently as high as 37%). To the extent that a Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively affected by the increased expenses incurred by the Fund and may result in a greater number of taxable transactions.

The following table sets forth the portfolio turnover rates for each Fund during the fiscal years ended May 31:

Fund	2022	2021
Mid Cap Fund	31%	38%
Genesis Fund	33%	32%

Code of Ethics

The Trust, the Adviser and the Distributor have each adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These codes permit, subject to certain conditions, personnel of the Trust, Adviser and Distributor to invest in securities that may be purchased or held by a Fund.

Proxy Voting Procedures

The Board has adopted proxy voting policies and procedures (“Proxy Policies”) wherein the Trust has delegated to the Adviser the responsibility for voting proxies relating to portfolio securities held by the Funds as part of the Adviser’s investment advisory services, subject to the supervision and oversight of the Board. Notwithstanding this delegation of responsibilities, however, each Fund retains the right to vote proxies relating to its portfolio securities. The fundamental purpose of the Proxy Policies is to ensure that each vote will be in a manner that reflects the best interest of a Fund and its shareholders, taking into account the value of the Fund’s investments.

The actual voting records relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling toll-free, (800) SEC-0330 or by accessing the SEC’s website at www.sec.gov.

The Adviser’s Proxy Voting Policies and Procedures

The Adviser will vote proxies on behalf of a Fund in a manner that it believes is consistent with the best interests of the Fund and its shareholders. Absent special circumstances, all proxies will be voted consistent with guidelines established and described in the Adviser’s Proxy Voting Policies and Procedures. Decisions are based on independent, objective analysis of the Fund’s economic interests. When a material conflict of interest may affect the Adviser’s ability to vote a proxy in the Fund’s best interest, the Adviser will disclose such conflict to the Trust and obtain the Trust’s written consent prior to voting.

Anti-Money Laundering Compliance Program

The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (“USA PATRIOT Act”). To ensure compliance with this law, the Trust’s Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. Ms. Deborah Ward has been designated as the Trust’s Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to: determining that the Distributor and the Transfer Agent have established proper anti-money laundering procedures; reporting suspicious and/or fraudulent activity; checking shareholder names against designated government lists, including Office of Foreign Asset Control (“OFAC”), and a complete and thorough review of all new opening account applications. The Fund will not transact business with any person or legal entity whose identity and beneficial owners, if applicable, cannot be adequately verified under the provisions of the USA PATRIOT Act.

As a result of the Program, a Fund may be required to “freeze” the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorists or other suspicious persons, or the Fund may be required to transfer the account or proceeds of the account to a governmental agency.

Portfolio Holdings Information

The Trust, on behalf of the Funds, has adopted portfolio holdings disclosure policies (“Portfolio Holdings Policies”) that govern the timing and circumstances of disclosure of portfolio holdings of the Funds. Information about a Fund’s portfolio holdings will not be distributed to any third party except in accordance with these Portfolio Holdings Policies. The Board has considered the circumstances under which a Fund’s portfolio holdings may be disclosed under the Portfolio Holdings Policies. The Board has also considered actual and potential material conflicts that could arise in such circumstances between the interests of a Fund’s shareholders and the interests of the Adviser, Distributor, or any other affiliated person of the Fund. After due consideration, the Board has determined that the Funds have a legitimate business purpose for disclosing portfolio holdings to persons described in the Portfolio Holdings Policies. The Board also authorized its CCO to consider and authorize dissemination of portfolio holdings information to additional parties, after considering the best interests of the Fund’s shareholders and potential conflicts of interest in making such disclosures.

The Board exercises continuing oversight of the disclosure of the Funds’ portfolio holdings by (1) overseeing the implementation and enforcement of the Portfolio Holdings Policies, codes of ethics and other relevant policies of the Funds and their service providers by the CCO, (2) by considering reports and recommendations by the CCO concerning any material compliance matters (as defined in Rule 38a-1 under the 1940 Act), and (3) by considering whether to approve any amendment to these Portfolio

Holdings Policies. The Board reserves the right to amend the Portfolio Holdings Policies at any time without prior notice in its sole discretion.

Disclosure of each Fund's complete holdings is required to be made quarterly within 60 days of the end of each fiscal quarter, in the annual and semi-annual reports to Fund shareholders, and in the quarterly holdings report on Form N-PORT. These reports will be made available, free of charge, on the EDGAR database on the SEC's website at www.sec.gov. The Funds also disclose their calendar quarter-end holdings on its website at www.reinhartfunds.com with approximately a 30 calendar day lag. The Funds may provide separately to any person, including rating and ranking organizations such as Lipper and Morningstar, a Fund's holdings commencing the day after the information is first published on the Funds' website. In addition, a Fund may provide its complete portfolio holdings at the same time that it is filed with the SEC.

In the event of a conflict between the interests of a Fund and its shareholders and the interests of the Adviser or an affiliated person of the Adviser, the CCO of the Adviser, in consultation with the Trust's CCO, shall make a determination in the best interests of the Fund and its shareholders, and shall report such determination to the Board at the end of the quarter in which such determination was made. Any employee of the Adviser who suspects a breach of this obligation must report the matter immediately to the Adviser's CCO or to his or her supervisor.

In addition, material non-public holdings information may be provided without lag as part of the normal investment activities of the Funds to each of the following entities which, by explicit agreement or by virtue of their respective duties to the Funds, are required to maintain the confidentiality of the information disclosed: the Administrator; the Fund Accountant; the Custodian; the Transfer Agent; the Funds' independent registered public accounting firm; counsel to the Funds or the Board (current parties are identified in this SAI); broker-dealers (in connection with the purchase or sale of securities or requests for price quotations or bids on one or more securities); and regulatory authorities. Portfolio holdings information not publicly available with the SEC or on the Funds' website may only be provided to additional third parties, in accordance with the Portfolio Holdings Policies, when a Fund has a legitimate business purpose, and the third party recipient is subject to a confidentiality agreement. Such portfolio holdings disclosure must be approved under the Portfolio Holdings Policies by the Trust's CCO.

In no event shall the Adviser, its affiliates or employees, or a Fund receive any direct or indirect compensation in connection with the disclosure of information about the Fund's portfolio holdings.

There can be no assurance that the Portfolio Holdings Policies and these procedures will protect the Fund from potential misuse of Fund information by individuals or entities to which it is disclosed.

Determination of Net Asset Value

The NAV of each Fund’s shares will fluctuate and is determined by the Fund Accountant as of the close of trading on the New York Stock Exchange (the “NYSE”) (generally 4:00 p.m., Eastern Time) each business day. The NYSE annually announces the days on which it will not be open for trading. The most recent announcement indicates that it will not be open on the following days: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. However, the NYSE may close on days not included in that announcement.

The NAV of each class of shares is computed by determining the “Net Assets” of each class and dividing by the total number of shares outstanding of each class at such time. The Net Assets of each class are calculated by (1) taking the value of all assets, less liabilities, held by each Fund and allocating such value to each share class based on the number of shares outstanding in each share class; (2) subtracting “Class Expenses” from each respective share class as defined and approved by the Board and a majority of the Independent Trustees under the Trust’s Rule 18f-3 Multiple-Class Plan; and (3) subtracting from each share class non-class specific “Other Expenses” that are allocated to each class based on the NAV of each class relative to the NAV of a Fund or the Trust, as the case may be.

$$\frac{\text{Net Assets Per Share Class}}{\text{Shares Outstanding Per Share Class}} = \text{NAV Per Share Class}$$

A Fund’s assets are generally valued at their market price on the valuation date and are based on valuations provided by independent pricing services. When market prices are not readily available, a security or other asset is valued at its fair value as determined under fair value pricing procedures approved by the Board. The Board reviews, no less frequently than annually, the adequacy of the policies and procedures of the Funds and the effectiveness of their implementation. These fair value pricing procedures will also be used to price a security when corporate events, events in the securities market and/or world events cause the Adviser to believe that a security’s last sale price may not reflect its actual market value. The intended effect of these fair value pricing procedures is to ensure that a Fund is accurately priced. The Board will regularly evaluate whether the Trust’s fair value pricing procedures continue to be appropriate in light of the specific circumstances of each Fund and the quality of the prices obtained through the application of such procedures.

Each security owned by a Fund that is listed on a securities exchange is valued at its last reported sale price on that exchange on the date as of which assets are valued. Where the security is listed on more than one exchange, a Fund will use the price of the exchange that the Fund generally considers to be the principal exchange on which the security is traded. If no sale is reported, the security is valued at the mean between the last available bid and asked price.

Portfolio securities primarily traded on the NASDAQ Stock Market (“NASDAQ”) shall be valued using the NASDAQ Official Closing Price (“NOCP”), which may not necessarily represent the last sale

price. If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and asked prices. OTC securities that are not traded on NASDAQ shall be valued at the most recent trade price.

Fixed income securities are valued at the mean of the bid and asked prices as determined by an independent pricing service, taking into consideration recent transactions, yield, liquidity, risk, credit quality, coupon, maturity, type of issue and any other factors or market data the pricing service deems relevant. Investments in other investment companies, including money market funds, are valued at their NAV per share. Participation Notes are valued at the mean between bid and ask prices. Investments in other investment companies, including money market funds, are valued at their NAV per share. Fixed income securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates fair value.

Foreign securities are generally valued in the same manner as the securities described above. Foreign securities are priced in the local currencies as of the close of their primary exchange or market or as of the close of trading on the NYSE, whichever is earlier. Foreign currencies and other assets denominated in foreign currencies are translated into U.S. dollars at the exchange rate as provided by a pricing service as of the close of trading on the NYSE.

Purchase and Redemption of Fund Shares

Shares of each Fund are sold in a continuous offering and shares may be purchased or redeemed on any business day that a Fund calculates its NAV. A Fund may also authorize one or more financial intermediaries to accept purchase and redemption orders on its behalf (“Authorized Intermediaries”). Authorized Intermediaries are authorized to designate other Authorized Intermediaries to accept orders on a Fund’s behalf. An order is deemed to be received when a Fund or an Authorized Intermediary accepts the order.

Orders received by a Fund or an Authorized Intermediary by the close of trading on the NYSE (generally 4:00 p.m., Eastern Time) on a business day will be effected at the NAV per share determined as of the close of trading on the NYSE on that day. Otherwise, the orders will be processed at the next determined NAV.

Orders received by financial intermediaries that are not Authorized Intermediaries will be processed at the NAV next calculated after the Transfer Agent receives the order from the financial intermediary.

Purchase Requests Must be Received in Good Order

“Good order” means that your purchase request includes:

- The name of the Fund you are investing in;
- The class of shares to be purchased;
- The dollar amount of shares to be purchased;

- Your account application or investment stub; and
- A check payable to the name of the Fund.

Shares of the Funds have not been registered for sale outside of the United States. The Funds generally do not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses or in certain other circumstances where the Chief Compliance Officer and Anti-Money Laundering Officer for the Trust both conclude that such sale is appropriate and is not in contravention of United States law.

Redemption Requests Must be Received in Good Order

Your share price will be based on the next NAV per share calculated after the Transfer Agent or an Authorized Intermediary receives your redemption request in good order. A redemption request will be deemed in “good order” if it includes:

- The shareholder’s name;
- The name of the Fund;
- The class of shares to be redeemed;
- The account number;
- The share or dollar amount to be redeemed; and
- Signatures by all shareholders on the account (with signature(s) guaranteed, if applicable).

Unless you instruct the Transfer Agent otherwise, redemption proceeds will be sent to the address of record. The Funds will not be responsible for interest lost on redemption amounts due to lost or misdirected mail.

A signature guarantee of each owner is required in the following situations:

- If ownership is changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption is received by the Transfer Agent and the account address has changed within the last 15 calendar days; or
- For all redemptions in excess of \$100,000 from any shareholder account.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source. Signature guarantees, from either a Medallion program member or a non-Medallion program member, can be obtained from banks and securities dealers, but not from a notary public.

The Funds may elect in the future to limit eligible signature guarantors to institutions that are members of a signature guarantee program. The Funds and the Transfer Agent reserve the right to amend these standards at any time without notice.

Redemption-in-Kind

Under normal circumstances, the Funds do not intend to redeem shares in any form except cash. The Trust, however, has filed a notice of election under Rule 18f-1 of the 1940 Act that allows a Fund to redeem in-kind redemption requests during any 90-day period in excess of the lesser of \$250,000 or 1% of the net assets of the Fund, valued at the beginning of such period. If a Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash, and will bear any market risks associated with such securities until they are converted into cash.

Cancellations and Modifications

The Funds will not accept a request to cancel or modify a written transaction once processing has begun.

Tax Matters

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Funds and their shareholders. The discussion reflects applicable U.S. federal income tax laws of the U.S. as of the date of this SAI, which tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the “IRS”), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. federal income, estate or gift, or state, local or foreign tax concerns affecting the Funds and their shareholders (including shareholders owning large positions in the Funds). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in the Funds.

Each series of the Trust is treated as a separate entity for federal income tax purposes. Each Fund, a series of the Trust, intends to qualify and elect to be treated as a regulated investment company (“RIC”) under Subchapter M of the Code, provided it complies with all applicable requirements regarding the source of its income, diversification of its assets and timing of distributions, as discussed below.

If for any taxable year a Fund fails to qualify for the special federal income tax treatment afforded to RICs, all of its taxable income will be subject to federal income tax at the applicable corporate income tax rate (without any deduction for distributions to the Fund’s shareholders) and its income available for distribution will be reduced.

As long as a Fund meets certain requirements that govern the Fund’s source of income, diversification of assets and distribution of earnings to its shareholders, the Fund will not be subject to U.S. federal income tax on income distributed (or treated as distributed, as described below) to its shareholders. With respect to the source of income requirement, a Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities or foreign

currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such shares, securities or currencies and (ii) net income derived from interests in qualified publicly traded partnerships (“QPTP”). A QPTP is generally defined as a publicly traded partnership under Section 7704 of the Code, but does not include a publicly traded partnership if 90% or more of its income is described in (i) above.

With respect to the diversification of assets requirement, a Fund must diversify its holdings so that, at the end of each quarter of each taxable year, (i) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, with such other securities limited for purposes of such calculation, in respect of any one issuer, to an amount not greater than 5% of the value of the Fund’s total assets and not more than 10% of the outstanding voting securities of such issuer and (ii) not more than 25% of the value of the Fund’s total assets is invested in the securities of any one issuer (other than U.S. government securities or the securities of other RICs), the securities (other than the securities of other RICs) of any two or more issuers that the Fund controls and that are determined to be engaged in the same, similar or related trades or businesses, or the securities of one or more QPTPs.

In addition, pursuant to the Code, a Fund may invest no more than 25% of its total assets in the securities of MLPs and other entities treated as QPTPs. The Funds will not be required to reduce a position due solely to market value fluctuations in order to comply with the 25% limitation in publicly traded partnerships, inclusive of MLP investments, but will not be able to purchase additional MLP securities unless the Fund is in compliance with the restriction.

Each Fund’s policy is to distribute to its shareholders substantially all of its net investment company taxable income and any net realized long-term capital gains for each fiscal year in a manner that complies with the distribution requirements of the Code, so that a Fund will not be subject to any federal income or excise taxes based on net income. However, a Fund can give no assurances that its anticipated distributions will be sufficient to eliminate all taxes.

Additionally, if a Fund does not qualify as a RIC, it would be taxed as a corporation and, in such case, it would be more beneficial for a shareholder to directly own the Fund’s underlying investments rather than indirectly owning the underlying investments through the Fund. If a Fund fails to distribute (or be deemed to have distributed) by December 31 of each calendar year (i) at least 98% of its ordinary income for such year, (ii) at least 98.2% of the excess of its realized capital gains over its realized capital losses for the 12-month period ending on October 31 during such year and (iii) any amounts from the prior calendar year that were not distributed and on which the Fund paid no federal income tax, the Fund will be subject to a 4% excise tax.

Net investment income generally consists of interest, dividends, and short-term capital gains, less expenses. Net realized capital gains for a fiscal period are computed by taking into account any capital loss carryforward of a Fund.

Distributions of net investment income are taxable to shareholders as ordinary income. For individual shareholders, a portion of the distributions paid by a Fund may consist of qualified dividends eligible for taxation at the rate applicable to long-term capital gains to the extent a Fund designates the amount distributed as a qualified dividend and the shareholder meets certain holding period requirements with respect to his or her Fund shares. In the case of corporate shareholders, a portion of the distributions may qualify for the intercorporate dividends-received deduction to the extent that a Fund designates the amount distributed as eligible for deduction and the shareholder meets certain holding period requirements with respect to its Fund shares. The aggregate amount so designated to either individuals or corporate shareholders cannot, however, exceed the aggregate amount of such dividends received by the Fund for its taxable year. In view of each Fund's investment policies, it is expected that part of the distributions by a Fund may be eligible for the qualified dividend income treatment for individual shareholders and the dividends-received deduction for corporate shareholders. Any distributions to you in excess of the Fund's investment company taxable income and net capital gains will be treated by you, first, as a tax-deferred return of capital, which is applied against and will reduce the adjusted tax basis of your shares and, after such adjusted tax basis is reduced to zero, will generally constitute capital gains.

Any long-term capital gain distributions are taxable to shareholders as long-term capital gains regardless of the length of time shares have been held. Net capital gains distributions are not eligible for the qualified dividend income treatment or the dividends-received deduction referred to in the previous paragraph.

Any distributions to you in excess of the Funds' investment company taxable income and net capital gains will be treated by you, first, as a tax-deferred return of capital, which is applied against and will reduce the adjusted tax basis of your shares and, after such adjusted tax basis is reduced to zero, will generally constitute capital gains to you.

Under the Tax Cuts and Jobs Act ("TCJA"), "qualified REIT dividends" (i.e., ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income) are treated as eligible for a 20% deduction by noncorporate taxpayers. The TCJA does not contain a provision permitting a RIC, such as a Fund, to pass the special character of this income through to its shareholders. It is uncertain whether a future technical corrections bill or regulations issued by the IRS will address this issue to enable a Fund to pass through the special character of "qualified REIT dividends" to its shareholders.

Distributions of any net investment income and net realized capital gains will be taxable as described above, whether received in shares or in cash. Shareholders who choose to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the NAV of a share on the reinvestment date. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record on a date in such a month and paid the following January are taxable as if received on December 31. Distributions are includable in alternative minimum taxable income in computing a

noncorporate shareholder's liability for the alternative minimum tax. (Under the TCJA corporations are no longer subject to the alternative minimum tax for taxable years of the corporation beginning after December 31, 2017.)

Investment income received by the Funds from sources within foreign countries may be subject to foreign income tax withheld at the source and the amount of tax withheld generally will be treated as an expense of the Funds. The U.S. has entered into tax treaties with many foreign countries that entitle the Funds to a reduced rate of, or exemption from, tax on such income. Some countries require the filing of a tax reclaim or other forms to receive the benefit of the reduced tax rate; whether or when the Funds will receive the tax reclaim is within the control of the individual country. Information required on these forms may not be available to the Fund, such as shareholder information; therefore, the Funds may not receive the reduced treaty rates or potential reclaims. Other countries have conflicting and changing instructions and restrictive timing requirements which may cause the Funds not to receive the reduced treaty rates or potential reclaims. Other countries may subject capital gains realized by the Funds on sale or disposition of securities of that country to taxation. It is impossible to determine the effective rate of foreign tax in advance since the amount of the Funds' assets to be invested in various countries is not known.

A redemption of Fund shares may result in recognition of a taxable gain or loss and, if held as a capital asset, capital gain or loss. Any loss realized upon a redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as distributions of long-term capital gains received on those shares. Any loss realized upon a redemption may be disallowed under certain wash sale rules to the extent Fund shares are purchased (through reinvestment of distributions or otherwise) within 30 days before or after the redemption.

The Funds are required to report to you and the IRS annually on Form 1099-B the cost basis of shares purchased or acquired. However, cost basis reporting is not required for certain shareholders, including shareholders investing in the Funds through a tax-advantaged retirement account, such as a 401(k) plan or an individual retirement account. Each Fund will calculate cost basis using the Fund's default method, unless you instruct the Funds to use a different calculation method. For additional information regarding the Funds' available cost basis reporting methods, including its default method, please contact the Funds. If you hold your Fund shares through a broker (or other nominee), please contact that broker (nominee) with respect to reporting of cost basis and available elections for your account.

Except in the case of certain exempt shareholders, if a shareholder does not furnish a Fund with its correct Taxpayer Identification Number and certain certifications or the Fund receives notification from the IRS requiring back-up withholding, the Fund is required by federal law to withhold federal income tax from the shareholder's distributions and redemption proceeds currently at a rate of 24% for U.S. residents.

Gain or loss recognized by the Funds on the sale or other disposition of portfolio investments will be a capital gain or loss. Such capital gain and loss may be long-term or short-term depending, in general,

upon the length of time a particular investment position is maintained and, in some cases, upon the nature of the transaction. Property held for more than one year generally will be eligible for long-term capital gain or loss treatment. The application of certain rules described below may serve to alter the manner in which the holding period for a security is determined or may otherwise affect the characterization as long-term or short-term, and also the timing of the realization and/or character, of certain gains or losses.

A U.S. REIT is not subject to federal income tax on the income and gains it distributes to shareholders. Dividends paid by a U.S. REIT, other than capital gain distributions, will be taxable as ordinary income up to the amount of the U.S. REIT's current and accumulated earnings and profits. Capital gain dividends paid by a U.S. REIT to a Fund will be treated as long-term capital gains by a Fund and, in turn, may be distributed by a Fund to its shareholders as a capital gain distribution. Because of certain noncash expenses, such as property depreciation, an equity U.S. REIT's cash flow may exceed its taxable income. The equity U.S. REIT, and in turn a Fund, may distribute this excess cash to shareholders in the form of a return of capital distribution. However, if a U.S. REIT is operated in a manner that fails to qualify as a REIT, an investment in the U.S. REIT would become subject to double taxation, meaning the taxable income of the U.S. REIT would be subject to federal income tax at the applicable corporate income tax rate without any deduction for dividends paid to shareholders and the dividends would be taxable to shareholders as ordinary income (or possibly as qualified dividend income) to the extent of the REIT's current and accumulated earnings and profits.

While non-U.S. REITs often use complex acquisition structures that seek to minimize taxation in the source country, an investment by a Fund in a non-U.S. REIT may subject a Fund, directly or indirectly, to corporate taxes, withholding taxes, transfer taxes and other indirect taxes in the country in which the real estate acquired by the non-U.S. REIT is located. A Fund's pro rata share of any such taxes will reduce a Fund's return on its investment. A Fund's investment in a non-U.S. REIT may be considered an investment in a PFIC, as discussed below. Additionally, foreign withholding taxes on distributions from the non-U.S. REIT may be reduced or eliminated under certain tax treaties. Also, a Fund in certain limited circumstances may be required to file an income tax return in the source country and pay tax on any gain realized from its investment in the non-U.S. REIT under rules similar to those in the United States which tax foreign persons on gain realized from dispositions of interests in U.S. real estate.

Investment in taxable mortgage pools (excess inclusion income). Under a Notice issued by the IRS, the Code and Treasury regulations to be issued, a portion of a Fund's income from a U.S. REIT that is attributable to the REIT's residual interest in a real estate mortgage investment conduit ("REMIC") or equity interests in a "taxable mortgage pool" (referred to in the Code as an excess inclusion) will be subject to federal income tax in all events. The excess inclusion income of a regulated investment company, such as a Fund, will be allocated to shareholders of the regulated investment company in proportion to the dividends received by such shareholders, with the same consequences as if the shareholders held the related REMIC residual interest or, if applicable, taxable mortgage pool directly. In general, excess inclusion income allocated to shareholders (i) cannot be offset by net operating losses (subject to a limited exception for certain thrift institutions), (ii) will constitute unrelated business

taxable income (“UBTI”) to entities (including qualified pension plans, individual retirement accounts, 401(k) plans, Keogh plans or other tax-exempt entities) subject to tax on UBTI, thereby potentially requiring such an entity that is allocated excess inclusion income, and otherwise might not be required to file a tax return, to file a tax return and pay tax on such income, and (iii) in the case of a foreign stockholder, will not qualify for any reduction in U.S. federal withholding tax. In addition, if at any time during any taxable year a “disqualified organization” (which generally includes certain cooperatives, governmental entities, and tax-exempt organizations not subject to UBTI) is a record holder of a share in a regulated investment company, then the regulated investment company will be subject to a tax equal to that portion of its excess inclusion income for the taxable year that is allocable to the disqualified organization, multiplied by the applicable corporate income tax rate. The Notice imposes certain reporting requirements upon regulated investment companies that have excess inclusion income. There can be no assurance that a Fund will not allocate to shareholders excess inclusion income.

These rules are potentially applicable to a Fund with respect to any income it receives from the equity interests of certain mortgage pooling vehicles, either directly or, as is more likely, through an investment in a U.S. REIT.

Each Fund’s transactions in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned. This treatment could increase or decrease the Funds’ ordinary income distributions to you, and may cause some or all of the Funds’ previously distributed income to be classified as a return of capital. In certain cases, the Funds may make an election to treat such gain or loss as capital.

While securities are loaned out by a fund, the fund generally will receive from the borrower amounts equal to any dividends or interest paid on the borrowed securities. For federal income tax purposes, payments made "in lieu of" dividends are not considered dividend income. These distributions will neither qualify for the reduced rate of taxation for individuals on qualified dividends nor the 50% dividends-received deduction for corporations.

The Funds may invest in securities of foreign companies that may be classified under the Code as a passive foreign investment company (“PFIC”). In general, a foreign company is classified as a PFIC if at least one-half of its assets constitute investment-type assets or 75% or more of its gross income is investment-type income. When investing in PFIC securities, the Funds intend to mark-to-market these securities under certain provisions of the Code and recognize any unrealized gains as ordinary income at the end of the Funds’ fiscal and excise tax years. Deductions for losses are allowable only to the extent of any current or previously recognized gains. These gains (reduced by allowable losses) are treated as ordinary income that a Fund is required to distribute, even though it has not sold or received dividends from these securities. You should also be aware that the designation of a foreign security as a PFIC security will cause its income dividends to fall outside of the definition of qualified foreign

corporation dividends. These dividends generally will not qualify for the reduced rate of taxation on qualified dividends when distributed to you by the Funds. Foreign companies are not required to identify themselves as PFICs. Due to various complexities in identifying PFICs, the Funds can give no assurances that it will be able to identify portfolio securities in foreign corporations that are PFICs in time for the Funds to make a mark-to-market election. If a Fund is unable to identify an investment as a PFIC and thus does not make a mark-to-market election, the Fund may be subject to U.S. federal income tax on a portion of any “excess distribution” or gain from the disposition of such shares even if such income is distributed as a taxable dividend by the Fund to its shareholders. Additional charges in the nature of interest may be imposed on the Funds in respect of deferred taxes arising from such distributions or gains.

Foreign taxpayers (including nonresident aliens) are generally subject to a flat withholding rate, currently 30% on U.S. source income. This withholding rate may be lower under the terms of a tax treaty.

This discussion and the related discussion in the Prospectus have been prepared by Fund management, and counsel to the Fund has expressed no opinion in respect thereof.

This section is not intended to be a full discussion of federal tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations to a particular investor. You are urged to consult your own tax advisor.

Distributions

Each Fund will receive income in the form of dividends and interest earned on its investments in securities. This income, less the expenses incurred in its operations, is a Fund’s net investment income, substantially all of which will be distributed to the Fund’s shareholders.

The amount of a Fund’s distribution is dependent upon the amount of net investment income received by the Fund from its portfolio holdings, is not guaranteed, and is subject to the discretion of the Board. The Funds do not pay “interest” or guarantee any fixed rate of return on an investment in its shares.

A Fund may also derive capital gains or losses in connection with sales or other dispositions of its portfolio securities. Any net gain a Fund may realize from transactions involving investments held less than the period required for long-term capital gain or loss recognition or otherwise producing short-term capital gains and losses (to the extent not offset by any capital loss carryovers), although a distribution from capital gains, will be distributed to shareholders with and as a part of the distributions of net investment income giving rise to ordinary income. If during any year a Fund realizes a net gain on transactions involving investments held for the period required for long-term capital gain or loss recognition or otherwise producing long-term capital gains and losses, the Fund will have a net long-term capital gain. After deduction of the amount of any net short-term capital loss, the balance (to the extent not offset by any capital losses carried over from the eight previous taxable years) will be distributed and treated as long-term capital gains in the hands of the shareholders regardless of the

length of time the Fund's shares may have been held by the shareholders. For more information concerning applicable capital gains tax rates, see your tax advisor.

Any distribution paid by a Fund reduces the Fund's NAV per share on the date paid by the amount of the distribution per share. Accordingly, a distribution paid shortly after a purchase of shares by a shareholder would represent, in substance, a partial return of capital (to the extent it is paid on the shares so purchased), even though it would be subject to income taxes.

Distributions will be made in the form of additional shares of the Fund unless the shareholder has otherwise indicated. Investors have the right to change their elections with respect to the reinvestment of distributions by notifying the Transfer Agent in writing. However, any such change will be effective only as to distributions for which the record date is five or more calendar days after the Transfer Agent has received the written request.

Financial Statements

The Funds' [annual report to shareholders for the fiscal year ended May 31, 2022](#) is a separate document and the financial statements, accompanying notes and report of the independent registered public accounting firm appearing therein are incorporated by reference into this SAI.
